CAN YOU FEEL IT

JOSH YOUNG

```
B                    Bsus  B       B                  Bsus B
All across the world,            Your river is flowing
          G#m                      F#/A#
There's a passion that's growing
                              B      Bsus B
For things we have not seen

B                    Bsus  B          B                  Bsus B
All across the world             Your Spirit is moving
          G#m                      F#/A#
There's a sound that's resounding
                     B   Bsus  B
Inside of you and me

     E           F#                 B
Can you feel it, the rain is falling
           G#m              F#         E
Children dancing freedom shining down
     E           F#                 B
Can you feel it, it's a celebration
                 G#m              F#          E
 The Father's laughing, He's drawing us to Him
                    B  Bsus  B
Oh, can you feel it

B                   Bsus  B                      B        Bsus  B
Inside our hearts                a new life is growing
          G#m                F#/A#
There's a warrior that's rising
                    B     Bsus  B
With a need to be free
